### Eisenhower **Finds Limited** Fighting Force

Lisbon, Portugal, Jan. 17 — (A)
— Gen. Dwight D. Eisenhower in spected the southeast extremity of his European zone of defense against communism today and found only a limited fighting force. Like some other countries he has visited in his tour of the Atlantic pact nations, Portugal was able to give the supreme com-

mander reasons for not doing very much. Here the reason was Spain. Portuguese observers explained that Portugal will not be able to take a very active part in Western Europe's defense unless Spain is brought into the Atlantic arms

system. Eisenhower called on Premier Antonio De Oliveira Salazar, 61. year-old Portuguese politician who has been a virtual dictator for 20

years. They talked through interpreters in a 45-minute conference. Before beginning his day the American commander went out for

HOME BUILDING BOOM PASSES PEAK.—Despite a sharp cutback in building beginning in September, the year 1980 was the biggest construction year on record Astrolluding beginning in September, the year 1900 was the biggest construction year on record. Actually, more new homes were started in the first ten months of the year than in any other full year on record. The Newschart, above, based on National Industrial Conference Board data, gives the home building picture from 1920 to 1950, with an inset chart showing the trend toward government financing of new homes. Currently the building industry faces a period of uncertainty caused by tightening of mortgage credit, materials shortages and uncertainties growing out of the Korean war and the rearmament program.
